*1 Not available with spot metering.

*2 Can be also selected with flash unit.

*3 AA/Mode A selection preformed on flash unit using custom settings. Mode A will be selected when a non-CPU lens is used.

*4 Can only be selected using camera Flash Control option.

*5 Auto aperture flash mode and non-TTL auto flash mode cannot be selected in the flash unit's custom menu.

*6 Non-TTL auto flash mode will be applied when a non-CPU lens is used.

*7 Available only in i-TTL, AA, A, GN and M.

Cannot be configured	—	Not supported by camera
